

Monsanto Fund Opportunity Scholarship | 2018 APPLICATION

By assisting young people in their pursuit of a college or university education in agriculture or food, we are investing in their future careers and in the future of agriculture and food production in Canada.

The Monsanto Fund Opportunity Scholarship Program is available to Canadian high school students who are enrolled in their final year of high school as of May 31, 2018 and eligible to graduate from high school in 2018. Those eligible for a scholarship must be planning to enroll at a Canadian post-secondary institution (degree or diploma) in a first-year agriculture, food science or culinary program.

If you have applied for entry into a college or university, but have not yet been accepted, you can still apply for a Monsanto Fund Opportunity Scholarship. However, if you are awarded a scholarship, you must provide an acceptance letter from your educational institution.

Successful applicants will each be awarded a scholarship valued at \$1,500, based on demonstrated academic standards and leadership in the community. Selection will be made by an independent panel.
